OFFICE	3D DESIGNER	2009	> 100,000+ M2	INTERIOR	X-LARGE COMPLEX		CANCELED	HONORABLE MENTION
PUBLIC		2008						

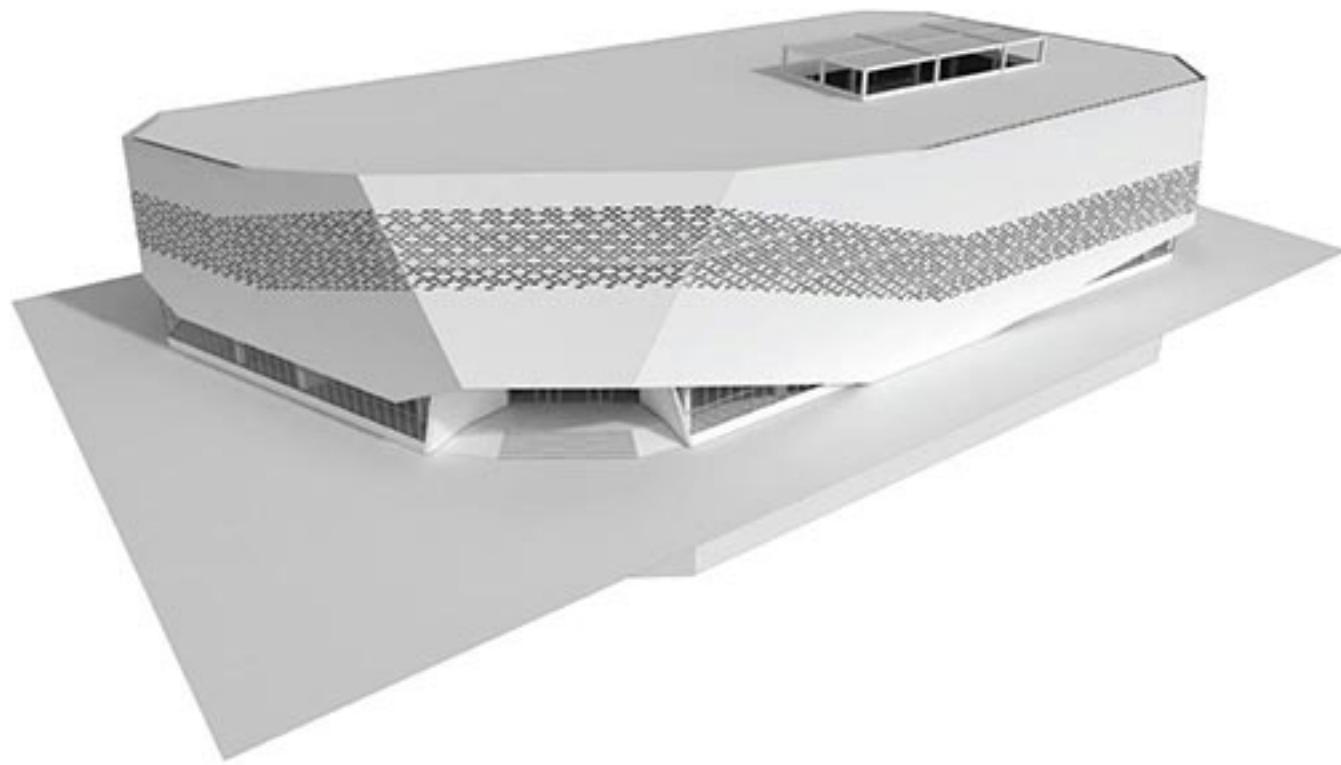

The strategy was to design an introverted building because of its location and its function.

The color and the texture of the exterior facade have its origin in the traditional bricks.

Because of the large temperature differences in this region, the most important parameter to be considered in the design was Saving the Energy. Therefore, we decided to slide the voids along each other to benefit the sunlight in the winter. And by adding some louvers on top of the building we could avoid the direct sunlight in the summer.

Arak, Iran, Professional Project, 12,500 sqm
espAr Studio - competition
2010
